End-of-Life Announcement: *READ180* v1.6

From May 1, 2010, in accordance with the Software Life Cycle Policy, Scholastic will no longer sell or make available *READ180* v1.6.

Subsequently, as of May 1, 2012, in accordance with the Software Life Cycle Policy, Scholastic will no longer offer Customer or Technical Support for *READ180* v1.6.

This will allow us to focus our resources on enhancing our products and providing support for more current versions, which are used by thousands of Scholastic customers.

This announcement will also affect customers as follows:

All active Product Maintenance and Support Plans for *READ180* v1.6 and/or earlier versions will be honored through May 1, 2012, provided they are renewed and remain current. As of May 1, 2012, all active plans will be cancelled and customers will be credited for the remainder of the service period.

READ180 v1.6 customers are encouraged to upgrade to *READ 180* Enterprise Edition, which is available in both locally installed and hosted deployments.

Scholastic Hosting Services can be a cost-effective alternative for those customers looking to upgrade existing Scholastic programs without the capital expenditures or inconveniences of purchasing and maintaining new servers. Please contact your Account Executive or 1-877-234-READ to learn more.

All v1.6 contracts or adoptions whose explicit end dates extend beyond May 1, 2012, will be honored as per their original terms.
